To Doctor Who.

I think that you should visit Sparta because I am sure that you will love it! It has a beautiful mountain side and lots of greenery. They are famous for poetry and pottery. The city of Sparta has no walls or motors, just men. In my opinion they should at least have walls. We know very little about Sparta hopefully you can uncover more knowledge.

In Sparta they have two Kings so one can rule while the other is fighting a war. They had some very harsh treatment. All of the males were made soldiers for war. Girls had more freedom than boys.

People used metal bars as money for example ten bars is ten pounds or five bars is five pounds.

Sparta really is a beautiful place, I think you should come and see.

Kind regards,
Finley.
