

Thursday 7th January 2021

Maths	<p>LO: To subtract 1- or 2- digit numbers.</p> <p>Let your child watch the video on the home learning section of the website to help recap/ introduce strategies your child may use to answer subtraction questions.</p> <p>Next can your child please complete the subtraction questions on the worksheet on the website. These questions can be written and answered in your child squared workbook in your child home learning pack.</p>
English	<p>LO: To use a picture to develop inference skills.</p> <p>Let you child watch the video on the home learning section of the website to help introduce today's English learning.</p> <p>Next please get your child to answer the 6 questions on the reading comprehension worksheet on the school website. The answers to these questions can be written in the lined home learning book provided in your child's home learning pack.</p>
Science	<p>LO: To learn the 7 life processes common to all living things.</p> <p>Let your child watch both of the videos on the home learning to introduce the learning for the term, This lesson has a few complex words however once the children have said/ used them a few times they should be fine.</p> <p>Go through the PowerPoint on the home learning section of the website and discuss with your child all 7 life processes.</p> <p>Ask your child to try and match each of the 7 life processes to their meaning using the worksheet on the school website. This can be written in their lined workbook provided in your home learning pack.</p>
Additional activities	<ul style="list-style-type: none">• Practice your x2, x5 or x10 timetables.• Practice your number bonds to both 10 and 20.• If you are able maybe you could complete the daily mile.
