

LO: To be able to show understanding of mathematical language related to capacity.

In maths we are looking at capacity. Below is a useful link to BBC Bitesize with some great videos which answer 'What is capacity?'.

Activity:

You will need:

A container

Liquid or rice.

Using the liquid or rice show the following with the container:

- A full container.
- An empty container.
- A half full container.
- A nearly full container.
- A nearly empty container.
- More than half full container.

For each of these see if you can label it too.

Remember to take loads of pictures.
